Quarterly Sub-Contractor Review

As part of our ongoing business improvement initiatives we are monitoring the performance of those who subcontract with us and to this end hold monthly reviews where each subcontractor on each site is scored against set criteria. The scoring is rated between 1 and 5.

We will be collecting the data from the monitoring forms and collating the results every 3 months. The current set of data is from November to January. An average score is calculated across all of the categories for the quarter and RAG (red /amber /green) rated. Red being categorised as Underperformance, Amber as Average to Good performance and Green as Very Good performance. The scores from this quarter show the following in relation to your performance:

Your average score for the quarter is **4.5**. This is in the **Green** Category and is therefore classed as **Very Good Performance**

We are very pleased to advise you that you are in the Green category and thank you for your commitment to achieving the required high standards and very much hope that you continue to achieve the same going forward.

Kind regards,
From the Bellway North East Management Team
